

Retrofit Program

Hydraulic generator field replacement

Trade in your old generator and
get up to **\$3500**
towards a *new*
Smart Power®
hydraulic generator

smart power® retrofit benefits ...

Immediate replacement

- Smart Power has your replacement unit on the shelf, ready to ship

Freedom of choice

- All Smart Power models (6-15kW) available – no constraints

Lower cost

- Trade in allowance of up to \$3500 provides a cost effective solution for upgrading or replacing your current generator system

Compact size

- Smart Power systems are 30% smaller than any other system available on the market

Higher reliability

- Replace your old, unreliable, underpowered generator with a brand new high performance electronic control Smart Power hydraulic generator system

Upgraded performance

- Smart Power electronically controlled hydraulic generators provide clean power, 50% more cooling capacity, and built in diagnostic protection

More power

- Increase your power output capability by trading in your smaller system towards a new larger Smart Power generator

New warranty

- Retrofit system includes a 2 year, 1000 hour warranty – an additional 3 years of extended warranty can be purchased at time of sale
